

# FULL HD 1080P WEBCAM

KAFHDWBCAMA

# OVERVIEW

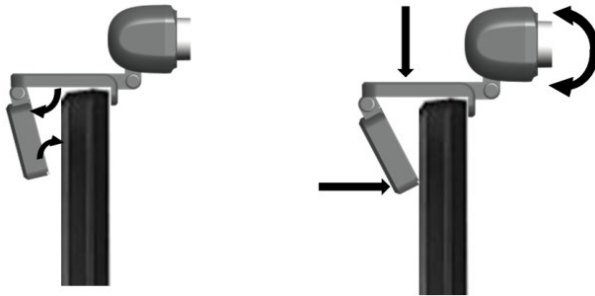

1. Manual focus HD 1080p lens
2. Microphone
3. Activity light
4. Power light
5. Flexible clip/base

# OPERATION

## Step 1: Installation

Place the monitor on in a suitable position for video calling or recording on your computer monitor, desktop or tripod.

To install on a computer monitor, place the webcam as shown and open the flexible clip/base with your other hand. Mount the webcam, making sure the foot on the flexible clip/base is flush with the back of your monitor.

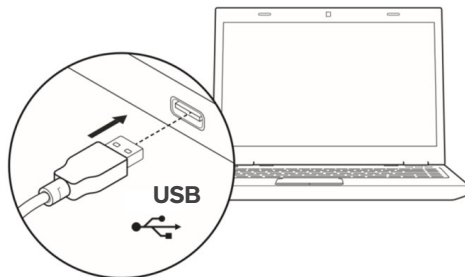

The focus can be manually adjusted by rotating the ring on the webcam.

## Step 2: Connection

Connect the webcam to an available computer USB port.

The webcam is plug-and-play; the Windows or Mac drivers will be loaded automatically. Driver installation may take a few moments.

The webcam does not ship with video calling or recording software. To make a video call, use your preferred video calling or recording application.
