

SPLIT SYSTEM INSTALLATION

AIRCON ADDITIONAL CHARGES:

Price listed is for Single Storey properties in metro areas and under units installed back to back.

ADDITIONAL CHARGES APPLY FOR:

- Double storey properties
- Regional locations
- Units above 4kW
- Non back to back installations

The most common extras and their standard pricing are noted below, however please be aware that other costs may be incurred based on your individual installation requirements.

Not all extras can be pre-purchased, as the installing electrician must attend site before the exact requirements can be determined. These will be completed on the day by the installer. Any extras not pre-purchased but required as per installer recommendations, will be payable to the installer on the day. In this case, the installer will explain the reasons for the requirement/s before proceeding.
